**Dear Alex**

**Support with Biggleswade Skate Park**

I am writing to thank you for your on-going support and assistance in connection with our project to replace the skate park facility in Biggleswade, Bedfordshire.

Your independent advice in developing our business case, consultation survey, tender specification and eventual selection of a specialist design and build contractor was invaluable and very much appreciated.

I am also grateful that you will continue be involved to shadow the build process and offer further independent advice to support the project.

I have asked my team to liaise with our website officer to develop a new webpage that highlights the project updates, support from The Skate Park Project and links to the Bedfordshire county page in [www.skateparks.co.uk](http://www.skateparks.co.uk) This will provide an ideal way to sign post residents looking for local skate park facilities without the need for us to develop and maintain a separate database.

Yours sincerely,

A handwritten signature in black ink that reads "H Hughes".
