

Received via email:

Dear Mr Tate

As you are aware I'm building three properties in Downview Close East Wittering.

The utilities company have identified that the main sewer goes towards the playing field and have suggested that this will be an appropriate place to connect to the main sewer for the new properties, If you would kindly agree to this?

The work will be inspected by Southern Water and a building control officer from Chichester District Council.

If you could reply to this email regarding your decision, please can you send it to..
